

Broadcasting Public Notice CRTC 2007-55

Ottawa, 22 May 2007

RENEWALS FOR RADIO PROGRAMMING UNDERTAKING LICENCES DUE TO EXPIRE IN 2007

DEADLINE FOR SUBMISSION OF INTERVENTIONS/COMMENTS:

26 June 2007

[\[Broadcasting intervention/comments form\]](#)

The Commission announces that it has received licence renewal applications for commercial radio programming undertakings whose licences are due to expire on 31 August 2007, as listed in this public notice. These applications raise no concerns and are complete.

It should be noted that in *Commercial Radio Policy 2006*, Broadcasting Public Notice CRTC [2006-158](#), 15 December 2006 (Public Notice [2006-158](#)), the Commission set out a new approach to the development and promotion of Canadian artists, which is expected to be implemented on 1 September 2007. In order to reflect a new emphasis on development initiatives that lead to the creation of audio content for broadcast using Canadian resources, the Commission will replace the expression "Canadian talent development" (CTD) with "Canadian content development" (CCD). Each radio station holding a commercial radio licence will be required to make a basic annual CCD contribution based on its revenues in the previous broadcast year. The basic contribution requirement will be enacted as a regulation. However, until such time as the regulation comes into force, the Commission intends to impose the basic contribution as a condition of licence.

The condition of licence would read as follows:

The licensee shall make a basic annual contribution to Canadian content development (CCD). The amount of the contribution shall be determined in accordance with the policy set out in Commercial Radio Policy 2006, Broadcasting Public Notice CRTC 2006-158, 15 December 2006, as amended from time to time (Public Notice 2006-158). The contribution shall be allocated to parties and initiatives fulfilling the definition of eligible initiatives in Public Notice 2006-158.

The licensee shall allocate 60% of this basic annual CCD contribution to FACTOR or MUSICACTION.

This condition of licence shall expire upon the coming into force of the amendments to the Radio Regulations, 1986 relating to Canadian Content Development.

With the exception of any requirements in respect of Canadian Content Development (formerly Canadian Talent Development), the licensees propose to operate the undertakings, including all authorized ethnic SCMO services, if applicable, under the same terms, conditions and definitions, as specified in the current licence and in the last renewal decision or, if there has been no renewal, in the initial licensing decision, and as specified in any subsequent written approvals granted during the term of its current licence.

* Stations identified with an asterisk have been monitored by Commission staff. The monitoring report has been placed on each licensee's public examination file. A copy can be obtained by contacting one of the CRTC documentation centres.

The Commission intends to renew these broadcasting licences for a full seven year term, subject to any interventions.

It is noted that other such licences expiring in 2007 will be dealt with at a later date.
