Route reference: 2010-192

Additional reference: 2010-192-1

Ottawa, 21 May 2010

UFV Campus and Community Radio Society
Abbotsford, British Columbia

Application 2010-0387-1, received 24 February 2010

CIVL-FM Abbotsford – Licence amendment

1. The Commission **approves** the application by UFV Campus and Community Radio Society to amend the broadcasting licence for the English-language community-based campus radio programming undertaking CIVL-FM Abbotsford in order to change the frequency from 88.5 MHz (channel 203A) to 101.7 MHz (channel 269A) and to change the station's authorized contours by increasing the average effective radiated power (ERP) from 92 watts to 220 watts (maximum ERP from 300 watts to 550 watts), by decreasing the effective height of antenna above average terrain from 336.8 metres to 121 metres, and by moving the antenna. The implementation is subject to the notification by the Department of Industry (the Department) discussed below. The Commission received an intervention in support of this application.

Condition prior to the implementation of the new technical parameters

2. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met and that a broadcasting certificate will be issued. Therefore, in the absence of the notification by the Department, the licensee will not be able to implement the new technical parameters approved in this decision.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>.
