Ottawa, 8 October 2010

### **NorthernTel, Limited Partnership – Application for forbearance from the regulation of residential local exchange services**

File number: 8640-N51-201014003

*In this decision, the Commission approves NorthernTel's request for forbearance from the regulation of residential local exchange services in the exchange of Timmins, Ontario.*

#### **Introduction**

1. The Commission received an application by NorthernTel, Limited Partnership (NorthernTel), dated 23 August 2010, in which the company requested forbearance from the regulation of residential local exchange services<sup>1</sup> in the exchange of Timmins, Ontario.
2. The Commission received submissions and/or data regarding NorthernTel's application from Bragg Communications Inc., operating as EastLink (EastLink), Rogers Communications Inc. (RCI), and TELUS Communications Company (TCC). The public record of this proceeding, which closed on 17 September 2010, is available on the Commission's website at [www.crtc.gc.ca](http://www.crtc.gc.ca) under "Public Proceedings" or by using the file number provided above.

#### **Commission's analysis and determinations**

3. The Commission has assessed NorthernTel's application by examining the four criteria set out below. These criteria are based on the local forbearance test originally set out in Telecom Decision 2006-15, as modified by Telecom Regulatory Policy 2009-379.

##### **a) Product market**

4. The Commission received no comments with respect to NorthernTel's proposed list of residential local exchange services.
5. The Commission notes that NorthernTel is seeking forbearance from the regulation of 19 tariffed residential local exchange services. The Commission also notes that in

---

<sup>1</sup> In this decision, "residential local exchange services" refers to local exchange services used by residential customers to access the public switched telephone network and any associated service charges, features, and ancillary services.

Telecom Decision 2010-176, it found all of these services to be eligible for forbearance. A list of the 19 approved services is set out in the Appendix to this decision.

#### **b) Competitor presence test**

6. The Commission notes that for the exchange of Timmins, information provided by parties confirms that there are, in addition to NorthernTel, at least two independent facilities-based telecommunications service providers, including providers of mobile wireless services.<sup>2</sup> Each of these service providers offers local exchange services in the market and is capable of serving at least 75 percent of the number of residential local exchange service lines that NorthernTel is capable of serving, and at least one, in addition to NorthernTel, is a facilities-based, fixed-line telecommunications service provider.
7. Accordingly, the Commission determines that the exchange of Timmins meets the competitor presence test.

#### **c) Competitor quality of service results**

8. The Commission notes NorthernTel's attestation that it received no complaints from competitors in the six months prior to the date of the application. The Commission also notes that it received no comments with respect to NorthernTel's competitor quality of service.
9. Accordingly, the Commission determines that the quality of service provided by NorthernTel to its competitors is of a sufficient level to grant forbearance.

#### **d) Communications plan**

10. The Commission has reviewed NorthernTel's proposed communications plan and is satisfied that it meets the information requirements set out in Telecom Decision 2006-15. The Commission **approves** the proposed communications plan and directs NorthernTel to provide the resulting communications materials to its customers, in both official languages where appropriate.

### **Conclusion**

11. The Commission determines that NorthernTel's application regarding the exchange of Timmins, Ontario meets all the local forbearance criteria set out in Telecom Decision 2006-15, as modified by Telecom Regulatory Policy 2009-379.
12. Pursuant to subsection 34(1) of the *Telecommunications Act* (the Act), the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in Telecom Decision 2006-15, in relation to the provision by NorthernTel of the residential local exchange services

---

<sup>2</sup> These competitors are EastLink, RCI, and TCC.

listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2 as they pertain to residential customers only, in this exchange, would be consistent with the Canadian telecommunications policy objectives set out in section 7 of the Act.

13. Pursuant to subsection 34(2) of the Act, the Commission finds as a question of fact that these residential local exchange services are subject to a level of competition in this exchange sufficient to protect the interests of users of these services.
14. Pursuant to subsection 34(3) of the Act, the Commission finds as a question of fact that to refrain from exercising its powers and performing its duties, to the extent specified in Telecom Decision 2006-15, in relation to the provision by NorthernTel of these residential local exchange services in this exchange would be unlikely to impair unduly the continuance of a competitive market for these services.
15. In light of the above, the Commission **approves** NorthernTel's application for forbearance from the regulation of the local exchange services listed in the Appendix and future services that fall within the definition of local exchange services set out in Telecom Public Notice 2005-2, as they pertain to residential customers only, in the exchange of Timmins, Ontario, subject to the powers and duties that the Commission has retained as set out in Telecom Decision 2006-15. This determination takes effect as of the date of this decision. The Commission directs NorthernTel to file revised tariff pages with the Commission within 30 days of the date of this decision.
